Dear Mr. Wrone:

Thank you for your letter of February 14. At the present time I have not written any publications on the John F. Kennedy affair. I contemplate completing a monograph within the next year which includes all of my observations as well as constructive criticisms about the manner in which the medical investigation was conducted, hopefully in order to improve the situation, should there be a similar investigation in the future.

Thank you for your interest.

Sincerely,

James T. Weston, M.D.
Medical Investigator and
Professor of Pathology
